Design Sylcom LAB

– Una pioggia di luce invade l'intero lampadario e si propaga nell'ambiente circostante grazie alla magia dei lustrini. Per mezzo della rifrazione, le facce delle *bobeche* e dei pendagli in cristallo di alta finitura, creano uno vero e proprio spettro colorato dall'effetto suggestivo e onirico. La lavorazione artigianale del vetro impreziosisce la collezione per mezzo di bracci e *pastorali* lavorati a mano secondo la tecnica del *torciglione* che ricorda l'intreccio di una corda.

– A cascade of light floods the lighting fixture and extends to the surrounding area via the magical effect of the spangles. The refraction of light on the surfaces of the *bobeche*s and highly polished crystal pendants create a dreamlike spectrum of gorgeous colours. Manual glass-making skills enhance the collection with handmade branches and curvilinear *pastorale* elements achieved via the *torciglione* technique that recalls the interlacing of cords.
