— Una composizione di voluttuosi nastri di vetro e trame fantasiose che donano dinamismo a una collezione capace di caratterizzare gli ambienti con un senso di serena leggerezza. Il motivo a losanghe delle superfici è ottenuto imprimendo il pattern sul vetro a caldo. La luce percorre le linee curve, si moltiplica nella trama geometrica e si specchia nei dettagli metallici della struttura creando uno scenografico gioco di riflessioni.

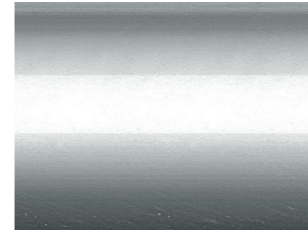

— Mocenigo proposes a gorgeous composition of curved, textured glass ribbons and was designed to create an appealing atmosphere in any room. The diamond effect is achieved by impressing the pattern on the glass while hot ( 'a caldo' technique). The light flows along the lines of the patterned surface, highlighting the metal details of the frame and creating a gorgeous play of shimmering light.
